**Good evening.**

Paul: Good evening—welcome—wonderful to have you back.

**Yes—there is so much to do at this time. I need not tell you how busy we have been in Spirit. We have been all around your planet, we have joined with those who are suffering at this time. But I want to say to you, my dear friends that the Love has also grown, as well as the negative areas in your world.**

Paul: That's very good to hear.

**Yes, I wanted to come this evening, to give thanks to all of you Spirit-workers, and there are many—more than you possibly realise; we give thanks to you *all*, because without your help, it would be a harder task. Therefore my dear friends, please accept the Love and the blessings that come to all of you this evening.**

All: Thank you.

**We know that the more positivity you create, the better it is, for not only you, but the planets also.**

Paul: Yes, you've said it's all connected.

**Yes, everything is connected, whether good or bad. It's like what you term, 'tossing the coin', sometimes it is not good and other times life is joyous. We at this moment in time, are doing all we can to bring *peace* to your world. Some people ask, why it is not possible for Spirit to come in and put an end to all things, but as well you know, we cannot interfere with the lives that are here now.**

**So take those few words, keep them close to your *heart* and you will see negativity disintegrate. It is not difficult to send Love to all the others in your world, it is easy my dear friends; just think of that beautiful word within you, that will bring peace and enlightenment to you all. (*Agreed*)**

**It is difficult times, but the earth planet has gone through many difficult times and as you said previously, it all has meaning, but not the kind of meaning we can express to you with understanding. So I say only to you, are there**

**any questions before I go this time? I want you to know too, that we are always close by. So know that whenever you call our names, we are there with you.**

All: Thank you.

Paul: I think one think that has helped a lot of people, is when you reassured us in 1994 that there will be no nuclear holocaust, **(Yes)** and I think some people have been reminded of that. It might be a good chance to just remind people again perhaps. As you say, we've been through lots of conflicts before...

**Yes. Earth is a complicated planet sometimes.**

Eve: We never seem to learn from past mistakes, do we?

**Yes, that is one of the problems, but I can tell you, you WILL move forward, you WILL move forward. Do not be afraid of your future, because we stand close by.**

Paul: And Spirit can't interfere too much, because we *have to go through*, **(Yes)** in order to *learn*.

**(Yes)**

Eve: We have to keep *learning and learning*.

**Yes, I feel and fear that some people *feel* that we have what you term, a '*magic wand*.' Know it is part of your life's travels, what you are experiencing once again. But I say to you, my dear friends, keep that positive attitude and we can grow quickly and end the many things that are making the Earth people so unhappy.**

Mark: I think one thing we have to learn, is to not be so easily influenced by our media on mass. It's like, this latest war, which is really between *America* and Russia, people have easily been influenced to feel that it's right to contribute to it and keep it going, **(Yes)** but it takes time for people to realise, I think.

**Yes, people must come to the realisation for themselves. We can influence a little, in different ways, but we cannot change what is going on—that is for mankind to understand. Yes, but you are correct in saying that mankind has to see for *himself*, what is good and what is, I will use your word 'evil', for the time being, because that is what lots of your people are thinking.**

Eve: So long as we don't destroy ourselves in the process.

**You must not even entertain those thoughts. You must not give way to thinking like that, because it takes hold of your very being and**

then it is even more difficult to be able to help. Do you understand? (Yes) Thank you. Now my dear friends, I needed to come this time, to help to uplift you, as much as we can, to also thank you for your good work that you give to others. You will be blessed many times for this. It may not be in this lifetime, but it will come to you.

*General thanks*

Eve: It's always good to get your upliftment, thank you.

**I hope that by the end of your evening, you will feel the power of spiritual upliftment within you.**

Paul: Thank you. There are a couple more questions, but should we save that for another evening, when there's more people here?

**Yes, if you would, that would be good for them, to actually hear words of encouragement. So yes, I will come shortly, to answer some of your questions.**

*General thanks*

Paul: We will continue to do what we do...

Sabine: Share the Love.

Eve: Be positive.

Paul: And try to turn people away from all the fear, because there's nothing to fear.

**No—it is difficult we know and we fully understand, but just remember:**

## **YOU ARE NEVER ALONE.**

**Remember that always, we are here to help and try to make a difference in your lives.**

**So now I will take my leave. I thank you my dear friends for all that you do.**

*More thanks/farewells*

Notes:

*Salumet on interconnectivity*

*25th October 2021*

**I wish you, my dear friends, to try to understand that whatever happens, is just part of a bigger *cause*. You would not perhaps understand that your life on earth, could be so interconnected with so many other planets, so many other galaxies, and I say to you at this time, *at this time*, all is confusion for you. Allow your minds to *rest* sometimes and perhaps a little understanding will come to you. You will never fully understand what is happening with these viruses and illnesses, but I can say to you, the worlds will turn out to be a better place—no matter how long it has to wait, it *will* happen.**

**So much is going on with the planets in this universe, it is almost like it is in a jar of ice and is being rattled**

**and rattled and rattled, until you wonder where you are. But remember that **Spirit are here to help you, Spirit will always come close to you**; so please, my dear friends, remember this.**

*23<sup>rd</sup> May 2011:*

**Yes, the stresses of your planet, as you call it, come from within and without. You are not a *singular* unit in all of these universes. Every planet is connected to the other. You cannot separate this Earth planet from any other, and say that you are special in any way, because you do not know the wider picture of life. It remains difficult for the human being to fully understand the working of the Great Creative Force.**

George: And we are so grateful to you for introducing us to other planets and other planetary beings, and this helps in our realisation of our part in a much greater system.

**Yes, until that realisation comes, you will always struggle with what is happening on the Earth planet—yes; but firstly look inwards, find yourselves within, and you become that greater part of the universe. When that happens, your understanding of your neighbours—your neighbouring countries—your neighbouring planets—neighbouring universes, will all become much clearer for you.**

George: We have the understanding that the universe is infinite—*our* universe that is—so any *other* universes would have to be equally infinite, but I guess on a different wavelength or a different vibration. Does that make sense?

**Partly—your universe is connected to all other universes and you all vibrate, yes, at slightly different rates, depending upon the universe. We are going much further than we have to this point. I want you to understand, my dear friend, that all-of-existence is inter-connected—is a mass of energy, which pulsates as I have said, in many different ways.**

George: The different universes are inter-connected themselves?

**Yes—yes. All—all life is connected—you cannot separate them, but at the same time it is a different rate of energy. This is further than we have ever gone and I do not think, at this particular time, your understanding could encompass the details of it.**

**...existence is simple—existence is love—existence is unity—existence is 'going within'.**
