

~10TH January 2005~

The first meeting of the New Year began with more information concerning our group and previous past life connections. This first communication was through Sarah:

How nice it is to be back with my fellow followers. We have been together before. We have been in the same tribe together. I was the chief and we were in a community of many tribes. We were self-sufficient, but without the other tribes we would not have been able to cope. Each tribe contributed something to the overall welfare of us Indians and you may be somewhat interested to know that the main task of our community was clothing—we needed to hunt and use the skins and the feathers for our costumes.

The community was of course mixed in ages and this group was also of mixed ages. I was the oldest of you all by a big margin and the youngest of you all was the lady who has a problem with her eyes. (Margaret) She was but a baby and was very capable of letting us all know that she was there. The youngest of the men was a teenager and this was the other lady who leads this group. (Lilian) The youngest of the girls was a young lady and she still is. (Sara) The grandmother, if you like to call it that, although at this time this grandmother was very young in comparison to grandmothers today, was the tall gentleman. (Graham) And her husband was the other gentleman. (George) So, you see that you two gentlemen here this evening have been related before. This lady, (Sarah) was an important young man who was deemed to take my place in times to come, but this was not to be, because he was killed on a hunting expedition. So his life was taken a little sooner than we had expected. So, the lady, (Eileen) who is not speaking at the moment—but I would like just to tell you that she will be speaking in a short time—she was the one who communicated with Spirit. She was the one you all turned to in times of trouble and she was what perhaps you might call today, an agony aunt. So, you can see that you have all worked together and it is my pleasure to be back with you once more after so many of your earthly years.

We were known as 'Gor-rukka Tribe' and the overall group of the many tribes together was

called 'Baa-Ba'. I am trying to give you a time when we were on this Earth planet, but it was not something we talked of in that period. It was a time before your civilization and I would perhaps say it was around the time of what you might call your Christ.

There are many of us, what you term Indians who are still grouped together in Spirit. Many of us still work together and I know when you return you will be able to re-meet many of those who you have already known and I am one of those who now help any who wish to meet together, to act as an intermediary if there is any problem meeting together and if you, when your time comes, wish to meet together I am sure I will be there for you as a welcoming face. You will know me and the name will not be necessary, but if you wish for a name I can give you the 'Grand Mancha'. There will be instant recognition. And now I leave the other lady to bring to you one other.

One followed through Eileen:

Please to retreat a little further back. I come to you only because I have been asked to. Before you ask, I am Natashi Wa. I also belong to Indian race but I have no name—I belong as a child of the Great Spirit. I embrace all of my fellow men; I am happy to embrace them all within this love with which I feel from that Great Spirit in the sky. My name was given to me from that Great Spirit. 'Nahashi Wa' mean: small body, great Spirit. So, therefore, you can understand why I feel this great love for all of mankind. Even today I come within your realms to embrace and to bring comfort to those who are in need. I feel love which emanates from each one of you and let me say that I too enjoy the feeling of great love from another human being. It is almost tangible when I return to these realms. Therefore I, Natasha Wa, will leave you and leave you with great love.
